

# BULK-ORDER FORM

# PRINT IS EVERYWHERE

Print is Everywhere is an industry awareness campaign designed to share the positive stories of Print to students, educators, counselors and parents, to fill our employee pipeline.

### How to Use Print is Everywhere

The pipeline of candidates to replace an aging Print workforce has slowed, driven by the reduction of graphic communications programs in schools across North America. To respond to the labor needs of today's Print and graphic communications companies, the Print is Everywhere Kit and presentation materials are designed for all stakeholders to share the positive stories and opportunities of a career in Print. Use the materials at **open houses, career centers, job fairs, at local schools and colleges, and in your personal communities and social networks.**

### The Print is Everywhere campaign...

- Conveys how Print impacts everyday lives in ways not always recognized as being borne by this vast, advanced manufacturing sector.
- Includes access to free support materials, handouts, posters, social media imagery, and more.
- Is designed by students of the Scottsdale Community College School of Visual Communications.

### The Print is Everywhere Kit includes:

- Six printed industry booklets recognizing the industries of Commercial Print, Packaging Print, Tag and Label Print, Wide Format Print, Promotional Print, and Industrial Print.
- A booklet defining Print's renewable response to going green.
- A Career Guide identifying Print-related creative, technical, and production employment opportunities.
- Stickers promoting the industries and sustainability of Print.
- All of the above components packaged in a custom printed box.

Single orders, posters, and social media images will be available from the Print is Everywhere E-Store at [printiseverywhere.dokshop.com](http://printiseverywhere.dokshop.com) late summer, 2020.
